

CS 6100 Project

Foundations of Computer Science

Spring 2014

Final Project Due: Wednesday 30 April 2014 (12:30pm)

The project will be proposed by the student and must be approved by the instructor. The goal is to perform a piece of work and then write it up as a technical paper (e.g., to be submitted to a conference or journal). Regular progress reports must be provided. The final paper must be submitted by the due date, along with supporting materials (code, etc.).

Schedule

Weeks 1&2: Define Project

Weeks 3-last: Work on Project; Submit progress reports

Due Date: Turn in paper and accompanying material (code, references, etc.)
