

# Leagosaurus

90% Board Games, 10% Code

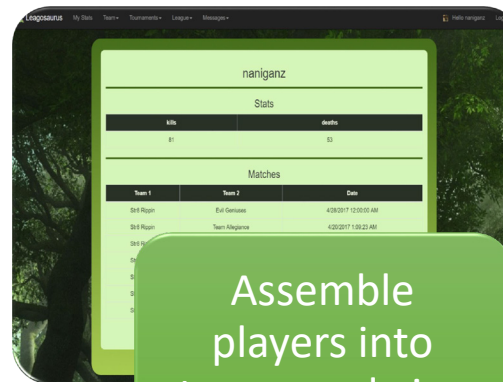

Christyn Phillippi, Jackson Stafford, Jonathan Kraiss, Braden Scothern

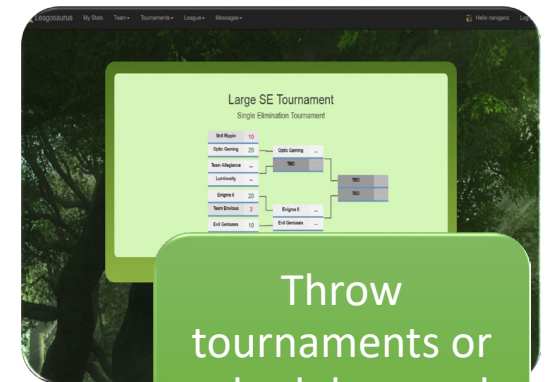

If you have ever been a part of a recreational sports team, you know that a lot of work goes into running the league behind the scenes. If you only like soccer, you might be able to find some software to help, but what if you like soccer, basketball, hockey, and softball? Leave it to the Leagosaurus!

Create a league with custom stats like touchdowns, hits, runs, or goals

Assemble players into teams and give everyone a place to track their performance

Throw tournaments or schedule round robin matches to crown a champion!

And it can handle more than just sports! Video games, board games, you name it!
