## Our Mission

Annoventures strives to create a positive community of outdoor enthusiasts that can share experiences and learn from one another. Annoventures supports many social features to keep you connected to the people and activities that interest you most. Annoventures promotes sharing of outdoor knowledge through a unique and easy to use recording interface that allows others to learn from your experience and follow in your footsteps. With powerful search features, as the Annoventures community grows, the repository of outdoor knowledge will become an invaluable resource to its members.

# Key features

## 1. Learning and community

Annoventures strives to create a positive community of outdoor enthusiasts that can learn from one another. Annoventures supports many social features to keep you looking at content from your friends. Annoventures features a full messaging service to help keep you connected to other users within the application. As the Annoventures community grows, the repository of outdoor knowledge will become an invaluable resource.

## 2. Rich GPS Tracking

Annoventures takes the outdoor GPS experience to a new level. Annoventures allows users to record tracks, and even mark points of interest with photos and text. Here's the real kicker: Annoventures lets you follow adventures that other users have recorded, and alerts you when you get close to a relevant area, so you never miss an overlook or confusing turn again! In addition, Annoventures GPS tracking can also be done fully offline, giving you all the same features in the wilderness that you would get in the city!

### 3. Safety

Safety is a big concern in the outdoor community, and Annoventures has dedicated tools to help make sure that you are covered even when you are out exploring. With automated deadman triggers, you can set an alert for when you should be back from your adventure. If you don't return, Annoventures will alert a group of trusted people to take action!

Zach Warrell

Out in the southern Utah desert. I am going on about a 10 mile loop in the Moab area. I am starting on the porcupine rim trail and heading up and around the la sal mountain range. If I don't come back by the end of the weekend send help!

## 4. Explore

Find your next adventure, discover a new area, or develop a new outdoor passion with Annoventures' interactive map search. You can search an area filtered by the activity you are interested in, so you can see the information you want to see and nothing more. Available on both iOS and web platforms.
