

CS4500 Project Plan

Due: Friday 29 January by Midnight

Use the Project Plan Document format given in the recommended text for the class on p. 89 (and pp. 162-165). This should include:

- Software Development Methodology used in the project.
- Deliverables (including who is responsible for each).
- Schedule with Milestones
- Team Organization (including decision making process)
- Major Components of System and how they interface.
- Tracking (including how progress will be tracked as well as bugs and problems).
