## Antelope Island Run With BMCU

May 14, 2011

By Susan Cady

On May 14th WMJR joined the British Motor Club for the annual Antelope Island run. It was a beautiful morning as we met in Kaysville at the O'Reilly auto parts. We had a wonderful turn out and it was great to see everyone!

We travelled West and North out to Antelope Island. We travelled through the bug swarms over the causeway and out to the Ranch. At the ranch we gathered for lunch and enjoyed the beautiful landscape and rustic buildings. Mother Nature held out long enough for us to finish our lunches, and then the wind and weather picked up for a short time.

After our lunch the group continued exploring the Island at their leisure. A good time was had by all! As we prepared to leave the Island, Mike Cady and David Hobson decided to switch cars for the drive back across the causeway.

The Cady's were driving their 2011 GT Mustang, as the XK-120 was still in storage for the winter, and the Hobson's were driving their 2000 XJR Supercharged Jaguar. The guys enjoyed driving one another's car and were both impressed with the performance of each vehicle.

Those in attendance from WMJR were John and Liz Green, Mike and Susie Cady, David and Debbie Hobson and Jim and Hermione Klekas.

## Member Spotlight Art and Martha Pasker By Liz Green

Art was born in Denver, Co. When he was 7 years old his family moved to Lyman, Nebraska to help his grandparents on his farm. There was no water, power, or inside bathroom. He had to help milk 5 cows, feed the horses then walk 1 mile to catch the bus to go to school.

They lived there in 1943 to 1945 when they moved to Colorado Springs, Co. He went to 3 different junior highs during his 7 grade.

Art graduated from Palmer High School in Colorado Springs. He went

on to The University of Denver for one year and then the school closed. He came to Utah to go to the University of Utah. He lost 30 credits because of

the move.

He graduated from the U of U with a BS degree in Fine Arts and then a degree in Architecture which took another year. Art has one sister who lives in Paradise, CA.

Martha was born in Murray, Utah and grew up in the Salt Lake City area. She graduated from West High School and went to the University of Utah. She has three brothers.

Utah in a biology class. Martha was late to class the first day and sat in the only seat left which was next to Art. The next day she was late again, but Art had saved her a seat next to him. She told him she was thinking of getting out of the class because she didn't like it and it was too far to come from her class just before it. He talked her into staying in the class and he helped her so she was able to pass the class.

Of course in doing so they became good friends and then really good friends and then ended up getting married.

They have three boys and three girls. They have 18 grandchildren. Art formed his own Architecture firm in 1963 called Pasker, Gould, Ames and

Weaver Architects. There are 16 employees and have an average tenure

being 19 years. That's quite a record. Sounds like a great place to work.

Art played fast pitch baseball when he

was young and with his boys. He had to quit when he was 64 years old because he broke his back. He was building a tree house for the grandkids and fell out of the tree and broke his back.

He loves to fly fish and goes all over the world including South America, Russia, and Alaska. Art is into oil painting and places 1<sup>st</sup> at the Utah State Fair (4 years in a row).

Martha has belonged to the Murray Women's Civic Guild for 30 years. She has been president several times. They provide scholarships in the arts program for High School students. She is also in a book

Art has his one and only Jag. A client of his in Florida wanted him to build a park'n ride with a car wash attached that was on some property in Grantsville. The property had a structure with a boarded up bay on the end.

An employee of Art's opened the bay and told Art he needed to come and look. With a flashlight in hand Art looked and

found the 1950 Mark V engine that said "Jaguar". This was at 10 am and by 2 pm it was in his garage at home.

When Art went to see him the man is blind. He restores cars. Art was amazed at his knowledge and his ability to restore cars. Art said he usually spent from 45 min to 1 hour talking to

Don on the phone. This car was built in Jan 1950 and was the 19<sup>th</sup> in production. It is a beautiful car. We are so glad you found the car and we love having you guys in our club.

His client had told him he didn't want anything on the property.

The car was mostly a shell with some parts in boxes. It took Art 5 years to
